Pension Term Assurance from Royal London Ireland

We all know taking out Life Cover is a good idea, but sometimes with all the other demands on your income such as mortgage payments, utility bills, holidays, school fees, the weekly grocery shop... it can be hard to see how to budget for Life Cover.

However, there is a solution available that delivers the peace of mind that comes from knowing that these expenses can be covered should you die. In fact, it can cost up to 40% less than a regular Term Assurance policy.

Its name... **Pension Term Assurance.**

Quite simply, this is a Term Assurance policy that is structured to use the tax relief that is currently available under Pensions legislation, and you don't even need to have a Pension plan to benefit from this type of policy! You can avail of the benefits of Pension Term Assurance and protect your family and their financial security provided you are:

- ➔ **Self-employed** or
- ➔ **Working in non-pensionable employment**

So, what exactly is it?

Pension Term Assurance from Royal London Ireland is a special type of Term Assurance designed to provide Life Cover to those in non-pensionable employment. This includes for example, a self-employed person or someone who is not a member of an employer-sponsored Pension plan.

A major attraction of a Pension Term Assurance policy is that currently, if eligible, you may **claim full tax relief** at your marginal tax rate on all premiums, within certain limits (see table) paid into this policy. So, if eligible, this valuable security may cost you as much as **40% less than a regular Term Assurance policy.**

For example, Tom owns his own business and currently pays tax on his earnings at the higher rate of income tax (40%). As he is self-employed, he is entitled to tax relief on his monthly Pension Term Assurance premium (currently €100 per month) of €40. Therefore, Tom's €100 monthly premium actually only costs him €60.

(Tax relief is currently available at your marginal rate of tax. 40% is the

rate currently applicable to higher rate taxpayers. Examples are based on current rates of taxation. The gross premium is payable to Royal London Ireland and the tax relief must be claimed from Revenue. Revenue limits, terms and conditions apply. This information is based on current Pensions legislation and Revenue practice which may change in the future.)

It's important that you know that the current maximum contributions allowed for tax relief are:

Age	% of net relevant earnings
Under 30	15%
30-39	20%
40-49	25%
50-54	30%
55-59	35%
60 and over	40%

A monetary maximum (currently €115,000) applies to the Net Relevant Earnings (earnings less allowable expenses) allowed for tax relief purposes. The limits apply to the total Pension Term Assurance premium and contributions to other approved pensions.

Additional Options

Indexation

You can choose to select **Indexation** on your Pension Term Assurance policy which helps protect against the negative effects of inflation. Quite simply, Indexation ensures that your cover increases by 3% each year (in return for a 4% increase in your premiums each year). This helps to protect the real value of your cover as time passes, assuming an annual inflation rate of less than or equal to 3%.

Conversion Option

Pension Term Assurance is also available with a **Conversion Option** which could be a valuable added benefit, as it allows you to take out a future Royal London Ireland policy without any medical evidence requirement.

You pay a slightly higher premium should you wish to include the Conversion Option in your policy, and the option can be used at any time during the policy term up to your 70th birthday. The premium rates current at the time of conversion, appropriate to your age at the time will apply. Full details of both the Conversion Option and Indexation and the Terms and Conditions which apply are contained in the relevant Policy Conditions booklet, which is available on request.
