

Your Royal London Personal Retirement Bond Charges Summary

This summary outlines the charges that apply to your Royal London Personal Retirement Bond (PRB) and should be read alongside the brochure **Your Guide to our Personal Retirement Bond**.

0.40% Annual Management Charge (AMC)

The AMC is a yearly fee that we charge to manage your policy and take on a monthly basis. This fee covers the costs of setting up and the ongoing servicing of your policy and the management of your investments. The standard charge for this policy is **0.40% per annum**. On certain funds, the AMC may be higher or lower. The difference in the AMC for these funds from the standard AMC is detailed in the table below. A proportionate AMC will apply when you take any retirement benefits, transfer your policy or switch funds.

The AMC applying to your policy will depend on how your contributions are invested and the value of your policy at the time our fee is deducted.

Fund	AMC (difference from standard)	AMC (including difference)
RL BlackRock Euro Government Bond Index Fund	-0.05%	0.35%
RL BlackRock Euro Government Inflation Linked Bond Index Fund	-0.05%	0.35%

Note: new funds with different AMCs may be added from time to time.

Ongoing Financial Broker charges

Depending on the product structure, you may have agreed to pay an ongoing Financial Broker charge to your Financial Broker. Please talk to your Financial Broker for further details of this charge and whether it will apply to your policy.

Allocation rate

The amount of your contribution which we invest in your chosen fund(s) will depend on the net allocation rate applied. This is the percentage of your money that we use to buy units in your chosen fund(s). For example, if the allocation rate is 99%, then this means that for every €100 you invest, €99 is used to buy units. So, in effect you pay €1 as a charge.

The gross of commission allocation rates are:

Contribution Amount	Gross Allocation Rate
€10,000 - €49,999.99	99%
€50,000 +	100%

The allocation rates in the table above will be reduced by 1% where the number of years until your retirement age (the term) is less than ten years at outset, or by 2%, where the number of years until your retirement age is less than five years at outset.

The net allocation rate you may receive may change depending on the commission you have agreed with your Financial Broker. Please talk to your Financial Broker to see what this means for you.

Early encashment charge

An early encashment charge may apply for the first three years of the policy. This charge applies on retirement before normal retirement age or if the policy is transferred to another pension arrangement. The charge applied will be based on a percentage (see below) of the policy value. It does not apply on ill-health early retirement, retirement at normal retirement age, or on death. If such a charge applies it will be shown on your **Policy Schedule**.

Time since you started your PRB policy	1 year	2 years	3 years
Early encashment charge	3%	2%	1%

Additional investment expenses

There may be additional expenses charged to the funds. These expenses cover the costs incurred by the investment management company and are taken from the value of the fund. The level of these expenses may vary across funds and from year to year. Our fund fact sheets, which are available from your Financial Broker, provide you with the most up to date amount of the additional investment expense for a specific fund as provided to us by the investment management companies. You can also find more detailed information on additional investment expenses and what they are comprised of on our website at www.royallondon.ie/additionalinvestmentexpenses.

Changes to charges

If we make any change which affects the charges on your policy, we'll let you know ahead of time. Further details can be found in your **Personal Retirement Bond Policy Conditions**.
